

## Spring 2 Nursery: What can I do with liquids?

This challenge encourages the children to explore different liquids including water and paint. They explore the language of mathematics. The children explore bubbles, how water can flow and travel. The children think about what happens when you mix colours.

<b>WOW</b>	Children mix colours to make new colours and explore making bubbles using lots of different equipment.	<b>Parents/Carers:</b> Explore colour mixing at home and using bubble mixtures.
LC1	Why do firefighters need water?	
LC2	How can you make water move?	
LC3	Where do puddles go?
